Purpose of the policy

This policy details how Hayes School deals with an emergency evacuation of the exam room(s) by defining staff roles and responsibilities and confirming the emergency evacuation procedure.

When is an emergency evacuation required?

An emergency evacuation is required where it is unsafe for candidates to remain in the exam room. This might include a fire in the exam room, the fire alarm sounding to warn of fire, bomb alert or other serious threat.

In exceptional situations, where candidates might be severely disadvantaged or distressed by remaining in the exam room, the emergency evacuation procedure may also need to be followed. This might include situations where there is severe disruption in the exam room, serious illness of a candidate or invigilator or similarly serious incidents.

As each incident may be different, advice will be sought from the relevant awarding body as soon as it is safe to do so, particularly where the centre is concerned about the security of the examination(s). (ICE 25.4)

Where candidates are unable to return to the building to complete the examination, the relevant awarding body will be contacted immediately for advice. The awarding bodies have procedures in place to ensure that candidates are not disadvantaged where they are unable to complete the examination due to circumstances beyond their control. (ICE 25.5)

Exams officer

Invigilators

- By attending training and/or update sessions, ensure they understand what to do in the event of an emergency in the exam room
- Follow the actions required in the emergency evacuation procedure issued to them for every exam room
- Confirm with the exams officer, where different procedures or assistance may need to be provided for a disabled candidate they are invigilating
- Record details on the exam room incident log to support follow-up reporting to the awarding body by the exams officer (see below)

Other relevant centre staff

- Support the senior leader, SENCo, exams officer and invigilators in ensuring the safe emergency evacuation of exam rooms

Recording details

As soon as practically possible and safe to do so, details should be recorded. Details must include:

- the actual time of the start of the interruption
- the actions taken
- the actual time the exam(s) resumed
- the actual finishing time(s) of the resumed exam(s)

Further details could include:

- report on candidate behaviour throughout the interruption/evacuation
- a judgement on the impact on candidates after the interruption/evacuation

Emergency evacuation procedure

Invigilators are trained in this procedure and understand the actions they must take in the event of a fire alarm or other emergency that leads to an evacuation of the exam room.

Emergency evacuation procedure
Actions to be taken (as detailed in current JCQ Instructions for conducting examinations section 25, Emergencies)
Stop the candidates from writing, make note of time.
Collect the attendance register (in order to ensure all candidates are present). Advise candidates to close all question papers and scripts and leave in the examination room. Ensure candidates leave the room in silence.
Evacuate the examination room (This will be to behind Huts 5 and 6, the Sports Hall or the Cricket ground depending which is nearer.) with the instructions given by the appropriate authority.
Lock the room if able.
Candidates are to line up in order they were sat.
Ensure the candidates are supervised as closely as possible while they are out of the examination room to make sure there is no discussion about the examination.
Make a note of the time of the interruption and how long it lasted on the incident log.
Allow the candidates the remainder of the working time set for the examination once it resumes, adding on what was missed.
If there are only a few candidates, consider the possibility of taking the candidates (with question papers and scripts) to another place to finish the examination.
Make a full report of the incident and of the action taken, and send to the relevant awarding body.
